MODE PT-1100
USER'S GUIDE

GENERAL PRECAUTIONS
• Use only Brother TZ tapes with this machine. Do not use tapes that do not have the TZ mark.
• Tapes are available in three different widths: 1/4" (6 mm), 3/8" (9 mm) and 1/2" (12 mm).
• Do not pull the tape since this may damage the tape cassette.
• Do not attempt to cut the tape while printing or feeding since this will damage the tape.
• Do not clean the machine with alcohol or other organic solvents. Use only a soft, dry cloth.
• Remove the batteries and disconnect the AC adapter if you do not intend to use the machine for an extended period of time.
• Do not use any foreign objects when setting on the machine.
• Do not expose the machine to high temperatures or high humidity. Never leave it on the dashboard or in the back of your car.
• Do not use the machine in dusty places, and keep it out of both direct sunlight and moisture.
• Do not leave any rubber or vinyl on the machine for an extended period of time.
• Do not print labels on metallic tapes, ribbons, or any surface with a glossy finish.

POWER SUPPLY
Batteries
Since this machine is compact and portable, it can be used anywhere by installing six AAA alkaline batteries (LR6). When changing the batteries, always replace all six at the same time.

- Press in on the rough area at the top end of the machine and fold open the back cover.
- Batteries are already installed, remove the tape cassette (if one is installed) by pulling it straight out, and then remove the batteries.
- Insert the batteries into the battery compartment with the positive end of the top three batteries pointing toward the bottom end of the machine, and the positive end of the top three batteries pointing in the opposite direction.
- Securely close the back cover, making sure that it snaps into place.

Optional AC adapter
The AC adapter allows you to use this machine whenever an electrical outlet is available.

- Use Brother’s AD-30 adapter for your new PT-1100.
- Insert the plug on the adapter cord into the adapter jack on the bottom end of the machine.
- Insert the plug into the nearest standard electrical outlet.

OVERVIEW

кроющейся части, но не до конца. 4. Не следует использовать бензин или другие жироемкие средства для мытья.

RETURN KEY
Press 1 when you wish to accept or confirm a setting, or end the first line of text and start the second.

ACCENTED CHARACTERS
You can also choose from a list of other accented characters that can be added to your text.

CODE KEY
By holding down 2 and pressing a key with a function, character or accent written above it, you can use the corresponding function or add the corresponding character to your text.

CAPS KEY
By pressing 5 to enter Caps mode, you can add upper case letters to your text by simply pressing the character keys. When this mode is on, the Caps indicator in the top-left corner of the display comes on. To exit Caps mode, press 5 until the Caps indicator goes off.

NUM KEY
By pressing 5 to enter Num mode, you can add numbers to your text by simply pressing the corresponding keys. When this mode is on, the Num indicator in the bottom-left corner of the display comes on. To exit Num mode, press 5 until the Num indicator goes off.

DISPLAY
This machine’s LCD shows not only 8 characters, but also the text that you can enter is up to 55 characters in length. The 8-character display is like a window which moves across the text.

CURSOR MOVEMENT
You can view and edit different parts of the text by moving the cursor backward and forward.
- To move the cursor one character at a time, press or.
- To move the cursor to the beginning of the text, hold down and press.
- To move the cursor to the end of the text, hold down and press.

BACKSPACE KEY
This key can be used to remove characters from your text, clear all of the text or cancel the current function and return to the text input mode.
- To delete the character to the left of the cursor or to cancel a function, press.
- To clear all of the text that is currently entered, hold down and press.

SPACE KEY
As a word processor, press 1 to add a blank space to your text.

SYMBO/L
In addition to the letters, symbols, and numerals on and above the keys, there are 72 symbols available with the Symbol function. These symbols are divided into 9 groups, corresponding to the letters A through L.

SIZE
The characters in the text can be set to one of five different sizes in addition to AUTO, which automatically adjusts the characters to fit the available space. The message “A-U?” appears in the display.
- Press and until the size indicator appears in the display.
- Press the key for the letter of the group containing the symbol that you wish to add, and then press and until the cursor is positioned under the desired accent.
- Press to add the selected character to your text.

Note:
- To add a second line, press 1 once. The return mark (।) appears in the text to indicate the end of the first line and the beginning of the second.
- To accept or confirm a setting from a list, press 1 once.

TAPE CASSETTES
A TZ tape cassette is supplied with this unit. The Brother TZ tapes used with this machine are available in a variety of colors and three tape widths (1/4" (6 mm), 3/8" (9 mm) and 1/2" (12 mm)).
- Press in on the rough area at the top end of the machine and fold open the back cover.
- If a tape cassette is already installed, remove it by pulling it straight out.
- If the ink ribbon in the other tape cassette is loose, use your fingernail to wind the toothed wheel in the direction of the arrow on the cassette until there is no slack in the ribbon. Also, make sure that the end of the tape feeds under the tape guides.
- Note: If you are using a new tape cassette provided with a starter, be sure to remove the stopper.
- Insert the tape cassette firmly into the compartment, making sure that the entire back of the cassette contacts the bottom of the compartment.
- Note: When inserting a tape cassette, make sure that the inner ribbon does not catch on the metal guides.
- Securely close the back cover, making sure that it snaps into place.
- Feed the tape by holding down 1 and pressing 1, and then push in the cut unsupported labels.

INTRODUCTION
PRINTING & CUTTING

After you have entered the text and chosen the desired format settings, you are ready to print the label:

1. To stop the print, press two dots: The message "PRINTING" is displayed while the label is being printed, and the label comes out of the tape slot at the top of the machine.
2. To feed out 1.254” (25 mm) of tape (for example, after printing using the “-” tape margin setting), hold down " and press once. The message "FEED" is displayed while the tape is fed out.
3. To cut off the label, push in the tape cutter lever in the top-right corner of the machine.

Note:
- To prevent damage to the tape, do not try to cut it while the message "PRINT" or "FEED" is displayed.
- After printing with the # or ## tape margin setting, push in the tape cutter lever to cut off the label, and then use scissors to cut along the printed dots (c) and center the text within the label.

REPEAT PRINTING

This function allows you to print up to nine copies of the same label.

To print the following procedure at any time without making any changes, press 1.

Press 2 and until STYLE is displayed, and then press (or ). The current style setting appears in the display.
Press and until the desired style setting is displayed.
Press or to apply the selected style setting to the text.

UNDERLINE/FRAME

You can use the memory to store your most frequently used text. The text file remains in the memory, even after all characters are removed from the display by holding down 1 for 4 seconds. The maximum number of characters (55 characters) have already been entered in the memory so far.

Press 3 until the memory has cleared on its own.

To feed out 1 1/24” (25 mm) of tape (for example, after printing using the “-” tape margin setting), hold down " and press once to feed the tape before pushing in the tape cutter lever to cut it.

Press 4 until the number where you want to print the label is displayed.
Press or to delete one of the stored text files before trying to store the current text.

If 300 characters are already stored, the message "FULL" appears. Press or 1, and then delete one of the stored text files before trying to store the current text.

RECALLING TEXT

Press 5 until the last number that you want to recall is displayed.
Press or until the file that you want to recall is displayed.
Press or 2 to clear the display and recall the selected text.

DELETING A TEXT FILE

Press 6 until the number where you want to delete the selected text file.
Press or (or ) to delete the selected text file.

ERROR MESSAGE LIST

Note:
- If the tape cassette has been inserted incorrectly, or if the tape cassette is empty, replace it.
- The character size is appropriate for the width of the tape that is used.
