P-touch® PC Graphic Computer Label Printer

Model: **PT-1500PC**

Turn anything you create on your computer into a P-touch label!

Who said organization needs to be boring?

P-touch electronic labeling systems – long used by millions to organize and identify everything from videotapes to warehouse shelving – have now reached the next level. The PT-1500PC creates colorful, durable labels on Brother's patented laminated tapes – but with a twist! With PT-1500PC's cool software, you can use virtually any font, and can add graphics, logos and photos to your labels. Virtually anything you can create on your computer screen can be made instantly into a P-touch label.

Imagine labeling file folders with your company logo, gift tags in that special font...even your children's camp stuff with their photos!

So now you can get more organized in your home or workplace, and have more fun doing it!
