INTRODUCTION

Thank you for choosing the PT-2430PC. Your new P-touch labeler uses P-touch Editor Lite software, which is already installed on your labeler. This manual describes important precautions and information and simple instructions for operating your new P-touch labeler. Be sure to read the instructions before use and use the product in accordance with these instructions. Keep this manual handy for future reference. If new versions of the P-touch software become available, this manual may not reflect the updated manuals. Therefore, you may find that the software and the contents in the guide are different.

Federal Communications Commission (FCC) Declaration of Conformity (For USA Only)

Responsible Party: Brother International Corporation
100 Somerset Corporate Boulevard, Bridgewater,
NJ 08807-9907 USA

TOLL FREE: 1-877-BROTHER (1-877-276-7843)

declares that the product
Product Name: P-touch labeler PT-2430PC
Model Number: PT-2430PC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try correcting the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by Brother Industries, Ltd. could void the user’s authority to operate the equipment.

SAFETY PRECAUTIONS

WARNING

- Use the power cord included with the labeler. Use of an incorrect power cord will result in damage to the P-touch labeler.
- Use only the USB cable included with the P-touch labeler.
- Use the AC adapter included with the P-touch labeler to operate the P-touch labeler.
- Use the AC adapter included with the P-touch labeler to operate the labeler. Do not use the AC adapter included with other Brother equipment, or the labeler may not operate properly or become damaged.

CAUTION

- Do not carry the P-touch labeler by its power cord. Doing so may result in accidents or damage to the labeler.
- Do not place the P-touch labeler near a strong magnetic field. Doing so may damage the labeler or the data contained in it.
- Do not expose the P-touch labeler to high temperatures or direct sunlight, doing so may damage the labeler.
- Do not use metallic articles, such as tweezers or a metallic pen, when exchanging the batteries.
- Do not disassemble or modify P-touch labeler/AC adapter/batteries.
- To prevent fire or electric shock, make sure that the plug is fully inserted to the power outlet. Do not use an outlet that is loose.
- Do not use the power cord, AC adapter, or USB cable if they are damaged. Doing so may result in electric shock or fire.
- Do not use aerosol sprays near the labeler. The sprayed agents may leak or be damaged.
- Store the batteries in a cool, dry place.
- To avoid injuries, do not touch the blade of the cutter unit or any metal parts near the print head.
- Do not use metallic articles, such as tweezers or a metallic pen, when exchanging the batteries.
- Do not disassemble or modify P-touch labeler/AC adapter/batteries.
- Do not use aerosol sprays near the labeler. The sprayed agents may leak or be damaged.
- Store the batteries in a cool, dry place.
- To avoid injuries, do not touch the blade of the cutter unit or any metal parts near the print head.
